

I am writing on behalf of the K-LOVE family of radio stations. As A parent and a listener I appreciate K-LOVE's involvement in the communities in the area in which I live. Not only are they a radio station I can trust for my entire family (no 7 second delay's needed). K-LOVE is also informative about happenings and events in our area.

I live in a rural part of Southern Ohio reception can be iffy at best. A lot of what we can receive contains music and content as a concerned parent I do not want my family exposed to. It's so nice to have a place of refuge on the radio dial.

I believe that assigning K-LOVE's frequency to a low power FM station would deprive our area of resource that's beneficial to families and communities because of the programming they provide. I firmly believe the more we promote family and family values the better our communities will be. K-LOVE touches so many lives in a positive aspect. In a day when we are surrounded so much discouraging information and negativity K-LOVE's format is a welcomed friend. Please consider the impending action carefully.

Sincerely

Dennis M. Weller
